## IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Patent Application of: Daniel Caput et al.

Serial No.: 09/077,817

Filed: September 14, 1998

Group Art Unit: 1646

Examiner: Basi, N.

For: Purified Polypeptides Having IL-13 Receptor Activity

CERTIFICATE UNDER 37 C.F.R. 1.10Express Mail Label Number: EL676470646USDate of Deposit: April 10, 2002

I hereby certify that this paper is being deposited with the United States Postal Service "Express Mail Post Office to Addressee" Service on the date indicated above and is addressed to: Asst. Commissioner for Patents, Washington, DC 20231.

AMENDMENT

Assistant Commissioner for Patents

Washington, D.C. 20231

Dear Sir:

In response to the Office Action mailed December 19, 2001, please amend the above-identified application as follows:

In the specification:

Please amend Figure 2B as indicated in red on the sheet submitted herewith.

In the claims:

Please add the following new claims 60-114.

E1 --60. (New) A method of identifying an inhibitor of IL-13 binding to the IL-13 receptor which comprises:

- (a) combining a receptor chain protein with IL-13 or a biologically active fragment thereof, said combination forming a first binding mixture;
- (b) measuring the amount of binding between the receptor chain protein and the IL-13 or fragment in the first binding mixture;
- (c) combining a compound with the receptor chain protein and the IL-13 or fragment to form a second binding mixture;
- (d) measuring the amount of binding in the second binding mixture; and
